## EDUCATION

---

### BERKELEY CITY COLLEGE

Associates Degree for Transfer

Major in Electrical Engineering & Computer Science;

Relevant Coursework: Data Structures, Object Oriented Programming C++ ; Linear Algebra

Berkeley, CA

Jan 2019 – May 2023

### UNIVERSITY OF CALIFORNIA, BERKELEY

Berkeley Skydeck Startup Program - Batch 19 IPP

Selected as one of the top 14 companies among 100 participants

Gained strategic mentorship from top-tier industry leaders and investors, resulting in raising \$800K in seed funding

Berkeley, CA

Oct 2024 – March 2025

## WORK EXPERIENCE

---

### DWILAR, INC

Founding Engineer

- First engineer; built core infrastructure and defined technical roadmap
- Scaled platform from zero to \$1M ARR with credit coverage in 50+ countries
- Led development of KYC and credit bureau data-integration systems, enabling issuance of real loans under manual operation

Palo Alto, CA

Oct 2024 – Present

### STEALTH STARTUP

Research Engineer

- Conducted mechanistic interpretability research on 5+ large language models (up to 13B parameters), analyzing 1000+ activation patterns per model
- Designed and executed 50+ probing experiments to identify latent behavior and failure modes
- Developed visualization tools that reduced analysis time by 40% and enabled rapid mapping of hidden neuron functions

San Francisco, CA

Jan 2023 – Oct 2024

### BERKELEY CITY COLLEGE - LEARNING RESOURCE CENTER

Teacher Assistant

- Assisted students with Calculus I & II, Physics 4A, and Data Structures & Algorithms coursework
- Held weekly office hours and review sessions to reinforce key concepts
- Helped create study materials and practice problems for students

Berkeley, CA

Jun 2019 – Aug 2021

## ACTIVITIES

---

### Q-BRANCH

Cohort Member

- Selected as 1 of 9 founders (8 startups) for a fully subsidized U.S. market entry program backed by the Japanese government
- Achieved key outcomes: established U.S. presence, secured first fundraising commitment, and expanded professional network in aerospace/defense-focused Texas market

Austin, TX

May 2025 – Present

### ALCHEMISTX – B2B Global Startup Acceleration Program

Cohort Member

- Selected as one of a small group of startups to participate in AlchemistX's flagship program supporting international founders entering the North American market

Palo Alto, CA

Sep 2025 – Present

## ADDITIONAL

---

**Technical Skills:** Advanced in Python, C++, SQL, Javascript, HTML/CSS; Proficient in MATLAB, Qiskit, Pytorch, Tensorflow, Keras, Solidity

**Languages:** Fluent in English; Professional Proficiency in Chinese Mandarin

**Awards:** Judge's Special Prize, Jstar X (METI, 2024); 1st Prize, JABI Business Contest (2024)
